DNA7000
Central Management System
Network Video Appliance

DANTE

DESCRIPTION

The DNA7000 Series is an Enterprise Central Management System with integrated Server and Client PCs Software for large scale applications. With Distributed architecture design, it supports tier and cascade deployment, local and IP-SAN Storage, multiple sites, 20 servers, 1000 users and is compatible with Dante DNA Series NVRs and IP Cameras. Features include user friendly GUI, up to 200ch video per screen, GIS map, monitoring windows, remote site Alarm alerts, 700Mb Streaming Rates, two way Audio, PTZ Data Controls and ONVIF compliance. Stability and reliability are complemented by load balancing, dynamic cluster, hot HDD spares and watchdog. The DNA7000 Series are effective solutions for commercial and industrial, large scale IP video surveillance installations.

FEATURES

* IP Video NVR Central Management System with Client DVR like Graphic User Interface

* Intel Processor 8GB DDR3; Embedded Linux OS, 16 HDD Slots; Raid 0/1/5 Modes

* Unlimited Sites, 20 Servers and 1000 Users, 10,000 Accounts, 2000 Video Channels

* GIS Map with sub-map (Google, RasterMap)

* Supports Dante DNA8000 Digital Matrix Platform and Video Wall

* Supports Local and IP-SAN Storage

* Up to 700Mb Stream Media Transfer or local storage capability

* 4x1000Mbps Ethernet RJ-45, 4 USB Ports

* Process 1000 Video Alarms per second

* ONVIF, GB/T28181 Protocol Gateway

APPLICATIONS

* Homeland Security

* Correctional Centers

* Petrochemical Industry

* Corporate and Banking

* Casinos and Hospitality

* Health Care Centers

* Schools and Universities

* Government and Military

* Power Generating Plants

* Traffic Surveillance (ITS)
