DX8300 Video Surveillance Control Board

Modular control board for professional camera and video management.

> Modular system

> Accurate control of PTZ cameras

> Professional design

> Durable quality

> Easy to install

DX8300 Video Surveillance Control Board is a modular system with separate joystick, keypad and jog dial units. The modular system allows the user to choose a simple solution such as the USB joystick for PTZ camera controls.

DX8300 Video Surveillance Joystick gives responsive and accurate control of all Dante PTZ and PTZ dome network cameras. With DX8300 Video Surveillance Keypad the user quickly navigates between workspaces, cameras, views and PTZ presets. DX8300 Video Surveillance Jog Dial is used for navigating through recorded video.

DX8300 units are constructed in durable materials and have a professional look and finish that adapt to a surveillance room design. The units are designed for both left hand and right hand use. DX8300 Joystick is a 3-axis joystick with a turn knob and six application defined hotkeys.

The units are easy to install with USB interface. When using the complete DX8300 Control Board the modules are interconnected with the DX8300 Keypad serving as a USB hub.
